June 15, 1999

Dear Sirs,

I personally and wholeheartedly oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I currently take natural hormones prescribed for me by my M.D. (Internal Medicine) and my pharmacist. I am under my doctor's care and we both rely on the advice and knowledge of the pharmacist to keep me healthy. I am completely in control and rely on the above experts to educate and advise me. I do not understand how you can consider mass-market pharmaceutical houses to be superior to the individual's right to choose.

Sincerely,

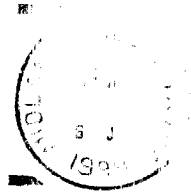

Jill Kathryn Bunting
